Hitting the Mark *By Susan Goff*

This is the final Press Towards the Mark for this school year and we have two fine gentlemen to recognize. For the lower grades, **Jacob Lin** was chosen. He is very respectful of the other students and his teachers. He is gifted in math and helps other students in this area. He knows the Bible well and shares that knowledge with the class. Jacob is six years old and in first grade. He lives with his parents and older brother, Lucas. Jacob enjoys art class and at recess he loves to make and fly paper airplanes. At home he likes to play games with his brother and dad. Jacob takes piano lessons and is on a baseball team. He remembers a fun time going to Maryland to meet family.

For the upper grades, **Peter Hoo** was chosen. He helped a classmate without being asked. Peter is in the fifth grade. He lives with his parents, sister, Elizabeth, and brother Timmy. He also has a pet fish. Peter's favorite subject is science because he loves to learn how animals and plants work. At recess he enjoys playing with his Rubik's Cube and at home he likes to play outside. Peter plays basketball, baseball, soccer and takes karate lessons. His favorite memory with his family was their trip to Jamaica. The hotel where they stayed was next to the shore and it had a great kid's area. Peter loved seeing the fish.

I would also like to mention a former student, **Nicolas Reed**. He helped with clean up at the Walk-a-thon without being asked. The PTF appreciated his help tremendously.

Honorable Mentions:
Kindergarten-Rachael Ebel-Being a good friend
2nd grade-Brynne Venne-man-Showing kindness to a fellow student
3rd grade-Alex Long-Straightened up the ball shed and did the ball monitors job when he/she did not.
4th grade-Brandon Chang-Helped a teacher

Can and Bottle Drive For Japan Relief

Again, the students and families of LACS have proven that when it comes to helping others, we get the job done! 2,191 bottles and cans have been turned in for a total of \$106.00. The goal was \$100, so we exceeded our goals. We want to thank Zachary Okamura for spearheading this project.
